Eco-system for GOT

Ruzy Suliza Hashim

Universiti Kebangsaan Malaysia

PROGRAM
GOT & U

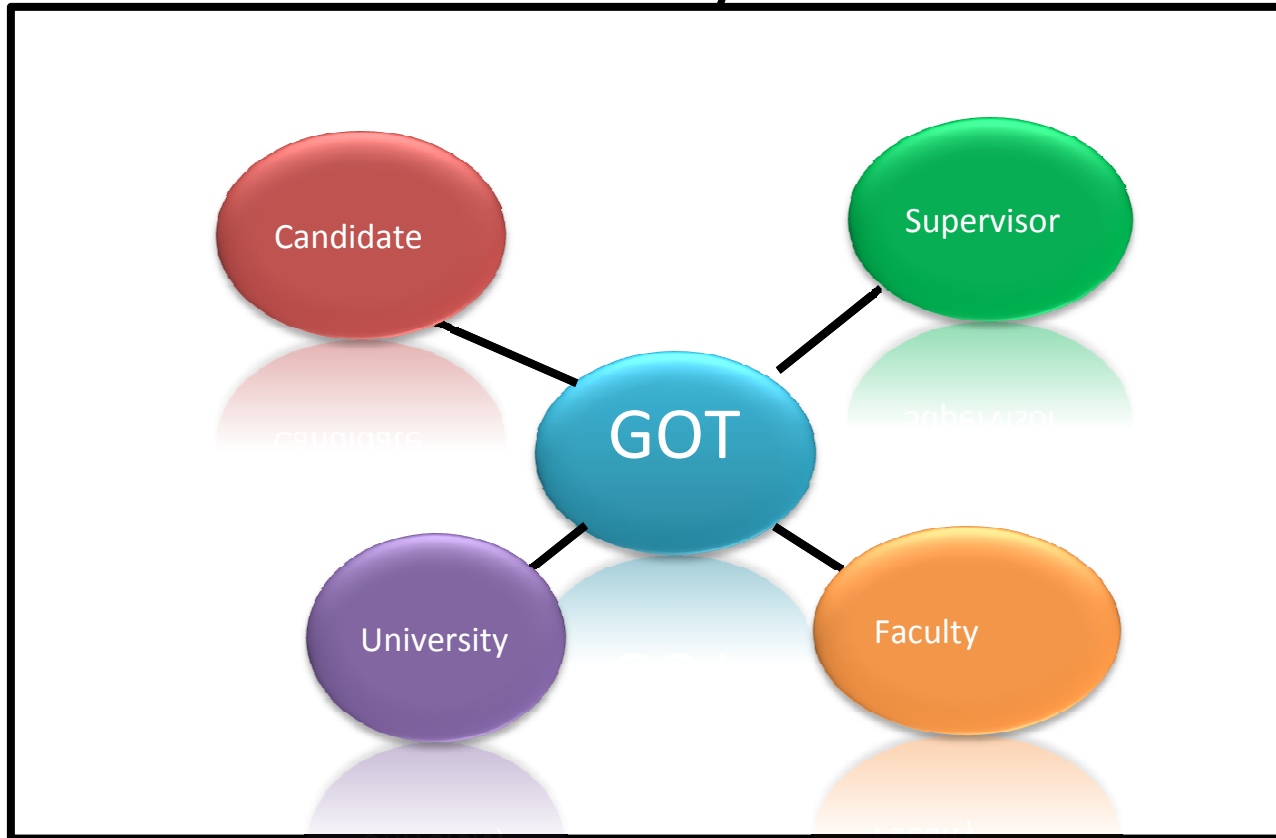

My Own Experience

- Completed my PhD in 3 years
- 3 students GOT (submission at the end of 4th semester to 5th semester since 2013)

4 Ecosystems within the Larger Ecosystem system

Personal challenge

- The thesis seems insurmountable

CANDIDATE: LOVE THY TOPIC

Choose topics wisely

- Is the candidate's PhD a love affair or a war story?
- Is s/he in a PhD romance or a PhD battle?

To be
successful, the
first thing to
do is to fall in
love with your
work.

Sister Mary Laretta

quoteoftheday.com

What Candidates Must do

- Look at other people's theses
- Familiarise structure (when to defend proposal; requirements of publication; when to submit notice of submission)
- Know expectations: What to expect when you are expecting (a baby in 3 years)

Check the library and its resources

Get to know supervisors

Get to know supervisors

- How busy are they?
- How often should you meet?
- How do they prefer the work to be sent? (hard copy? Via email?)
- How long do they need to read and give feedback?

Plan

Plan your work

- Gantt chart
- Simple table
- Daily reminders

Don't Go with the Flow – have a schedule

MY WEEKLY TIME PLAN

	FRIDAY		SATURDAY		SUNDAY		NOTES
	PLANNED	ACTUAL	PLANNED	ACTUAL	PLANNED	ACTUAL	
6-7							
7-8							
8-9							
9-10							
10-11							
11-12							
12-1							
1-2							

Time

- Treat your PhD like work – clock in and clock out
- 9 am – 3 pm. Weekends were free. School holidays were really holidays.
- If you can do 6 hours a day – Monday to Friday – you can G.O.T

Don't Procrastinate

QUIT MAKING EXCUSES, PUTTING IT OFF, COMPLAINING ABOUT IT, DREAMING ABOUT IT, WHINING ABOUT IT, CRYING ABOUT IT, BELIEVING YOU CAN'T, WORRYING IF YOU CAN, WAITING UNTIL YOU'RE OLDER, SKINNIER, RICHER, BRAVER, OR ALL AROUND BETTER. SUCK IT UP, HOLD ON TIGHT, SAY A PRAYER, MAKE A PLAN &

JUST DO IT.

Document all sources diligently

- Record all quotes and references.
- Devise a system.

Save, save, save

Nothing worse than a virus attack

Save, save, save

- Save your files in memorable ways

KNOW YOUR GAP

KEEP
CALM
AND
USE MLA
FORMAT

To be in a silo or not to be in a silo?

- Create alerts of latest studies on your topic
- Join discussion list online
- Talk to fellow postgraduates

When to start writing?

When to start writing?

- Read, and then write as soon as possible.
- Write after every article that you read.
- If you are stuck, look at the quotes and see how they can be expanded. Or how they relate to your corpus or data

The idea is to write
it so that people
hear it and it
slides through the
brain and goes
straight to the
heart.

Maya Angelou

Balance is important

Ecosystem for Candidate

E2: Supervisors

A good relationship with the supervisor will make it an easier road to the PhD finish line

**Compliment
people.
Magnify their
strengths,
not their
weaknesses.**

SUPERVISORS

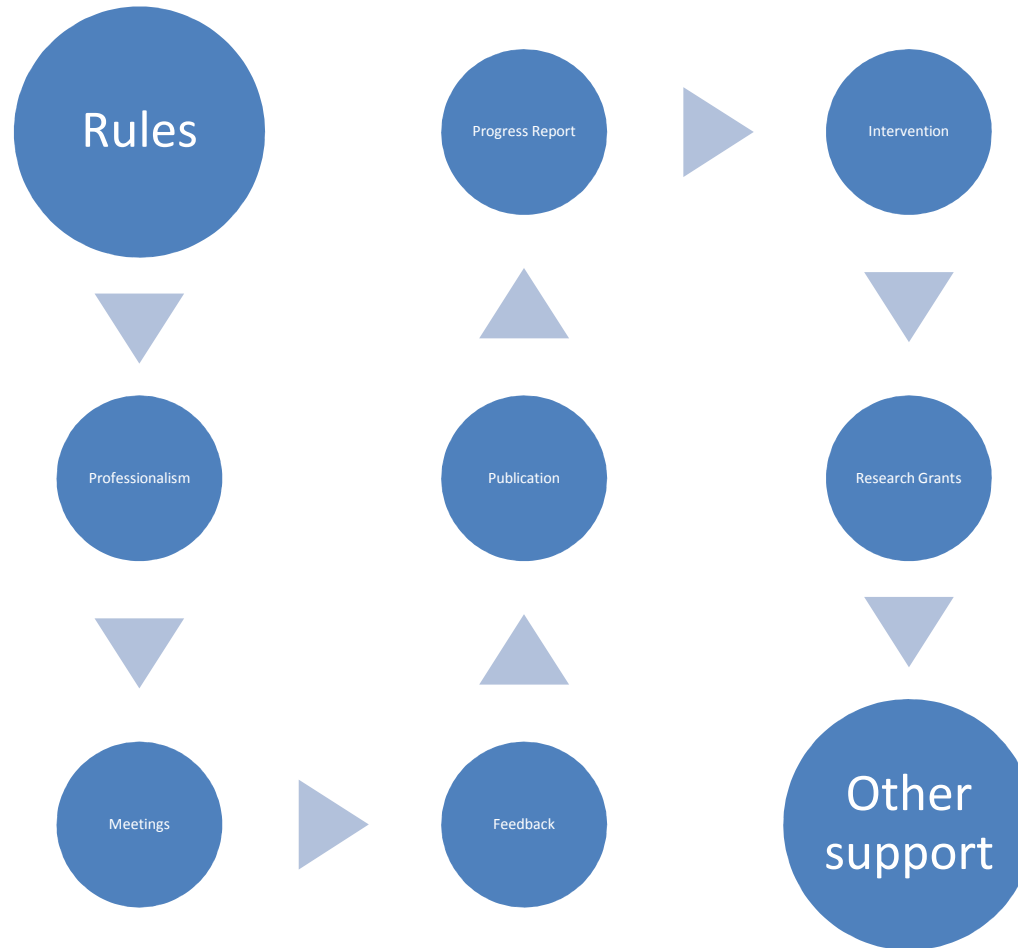

- Maintain professionalism and ethical behaviour
- Some problems
 - One supervisor being more dominant/demanding than the other
 - Shirking responsibility
 - Giving conflicting advice
 - Failure to work as a team

**Good supervisors
can take you to
incredible heights.
They help you learn
to fly, providing the
wind beneath you,
and providing a net
for when you fall.**

Ecosystem for Supervisors

E3: Faculty

- Academic Support
- Social Support

Academic Support

- Courses eg Research Methodology & Academic Writing
- Workshops
 - PhD journey – Sharing Experiences (Candidates & Supervisors)
 - Literature Review, Data Analysis, How to Publish
 - Time Management
 - Seminars

Academic Support

- Procedures in place
 - Complaints
 - Change of supervisors
 - Termination policy
 - Funding for research materials
 - Funding for conferences and publications

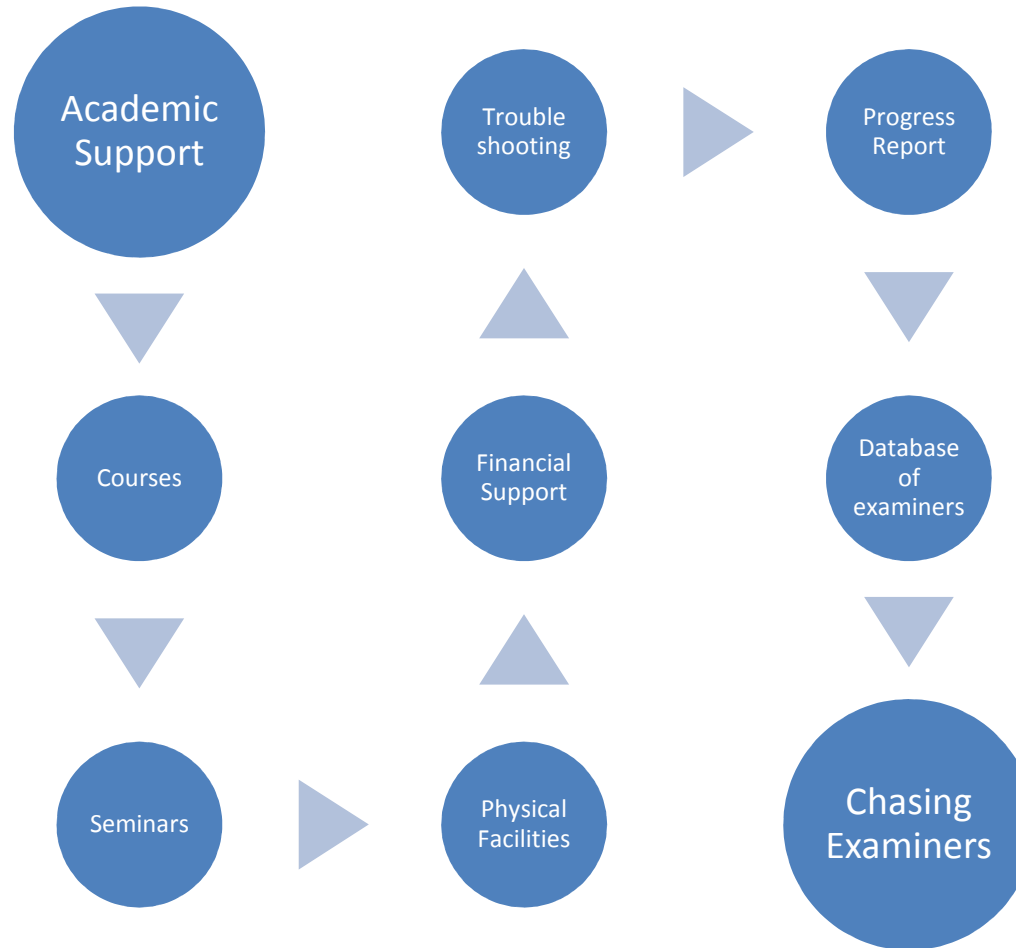

Social Support

- Postgraduate Social Meetings
- Dealing with Stress

Ecosystem for the Faculty

E4: University

- Workshop for Mentoring
- Funding for Research
- Scholarships/Grants
- Graduate assistantship

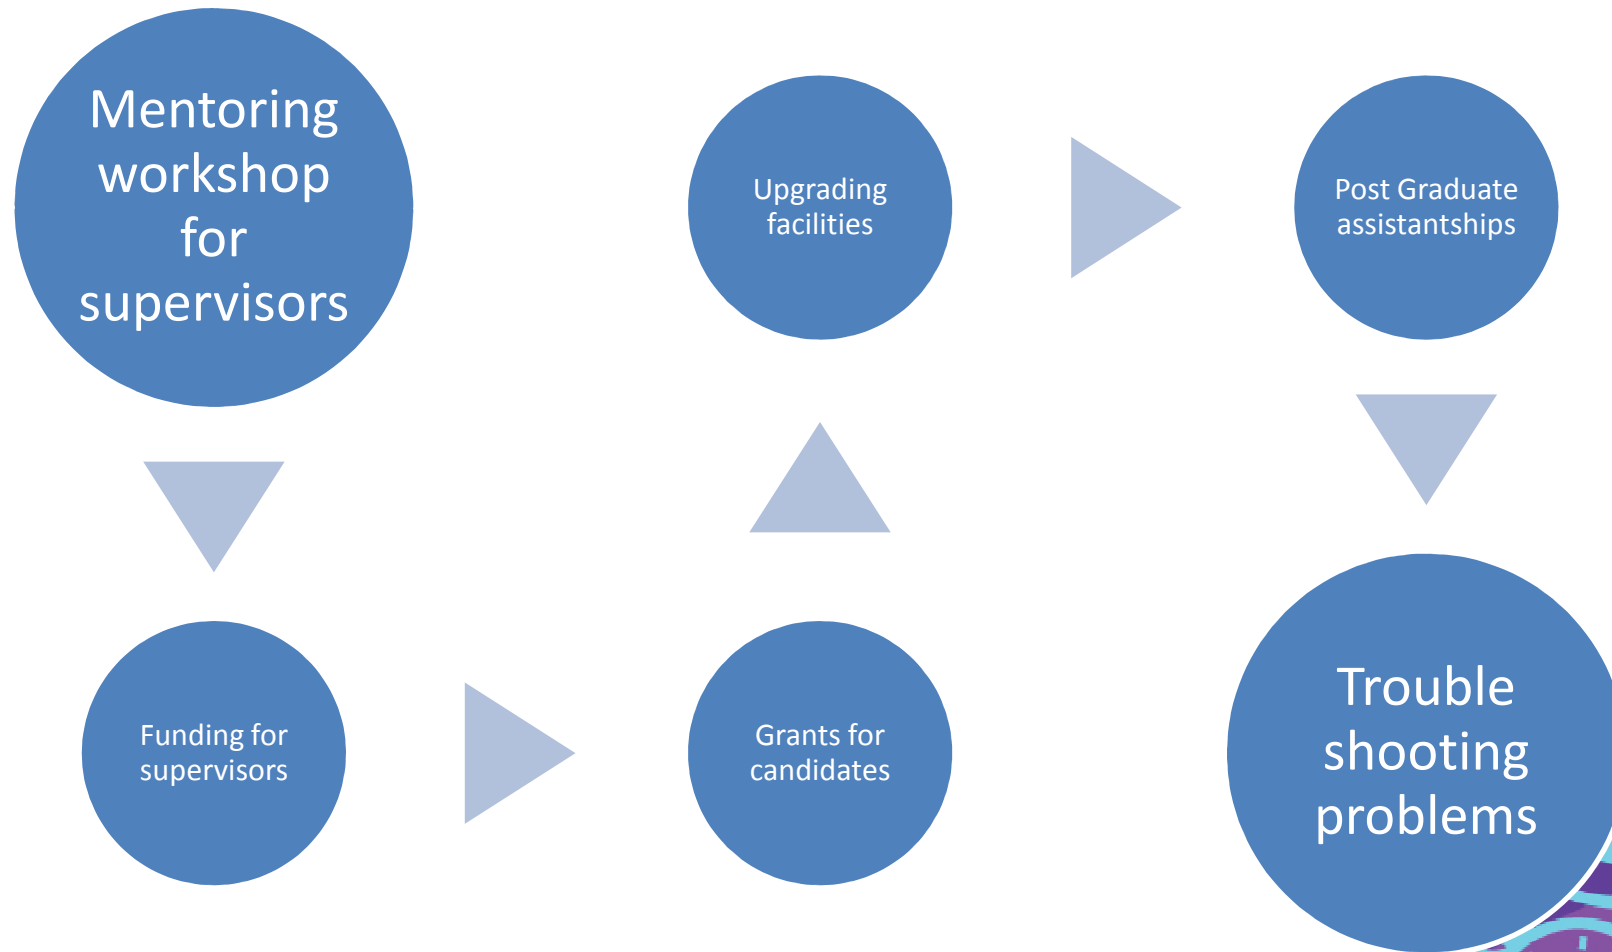

Facilities

- Upgrading facilities – postgraduate rooms, computer facilities, books & databases
- Comparative data (physical facilities)
- Oxford University – Graduate School Room, printing facilities, lockers, refreshments
- Macquarie University, Australia – Study space with swipe card access, kitchenette with microwave, fridge, wireless access

Ecosystem for the University

Conclusion

**THE ECOSYSTEM NEEDS
TO BE IN PLACE
BECAUSE FOR EVERY ACTION
THERE IS A REACTION**
